***Claim Rejections - 35 USC § 103***

1. Claims 7-11,24-26,31,32,34-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cordero et al (6,298,255) in view of Lin et al (6,289,243).

Cordero teaches all of the subject matter except for the explicit mention of the use of a cable and the use of a sensor adapter. Lin teaches the use of a cable and sensor adapter. It would have been obvious to use a cable instead of the substrate of Cordero since such would simply be a substitution of known prior art elements yielding a predictable result. Further, the use of a sensor adapter would increase the functionality of the system by allowing more and different types of sensors to be used. Re claim 37, the equipment settings are considered to be obvious over the subject matter set forth in col. 21 of Cordero.

2. Claims 27-30,33,38,39 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cordero et al (6,298,255) in view of Lin et al (6,289,243) and further in view of Reuss et al (7,048,687)

Reuss teaches the use of demographic data, as well as other data, stored on a memory chip, see col. 6,9,12,,17,19,20. It would have been obvious to store such data on the memory chip of Cordero and Lin since such has been shown to be useful to know to increase efficiency and effectiveness of patient treatment.

3. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 4/2/08 prompted the new ground(s)

of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
